But "perfect" regularity is perhaps even more horrifying in its monotony than randomness is.

We notice repetition among confusion, and the opposite: we notice a break in a repetitive pattern. But how do these arrangements make us feel? And what about "perfect" regularity and "perfect" chaos? (A) Some repetition gives us a sense of security, in that we know what is coming next. We like some predictability. (B) We arrange our lives in largely repetitive schedules. Randomness, in organization or in events, is more challenging and more frightening for most of us. (C) With "perfect" chaos we are frustrated by having to adapt and react again and again. (D) It implies a cold, unfeeling, mechanical quality. Such perfect order does not exist in nature; there are too many forces working against each other. (E) Either extreme, therefore, feels threatening.

① A ② B ③ C ④ D ⑤ E
