

고2_1903[기출문제] 21

다음 글의 빈칸 (A), (B)에 들어갈 말로 가장 적절한 phrase를 본문에서 연속적인 세 단어로 찾아 그대로 쓰시오.(필요시, 어형을 알맞게 변화하시오.)¹ [2019년 3월 21번]

Think of a buffet table at a party, or perhaps at a hotel you've visited. You see platter after platter of different foods. You don't eat many of these foods at home, and you want to try them all. But trying them all might mean (A)_____ than your usual meal size. The availability of different types of food is one factor in gaining weight. Scientists have seen this behavior in studies with rats: Rats that normally maintain a steady body weight when eating one type of food eat huge amounts and become obese when they are presented with (B)_____ high-calorie foods, such as chocolate bars, crackers, and potato chips. The same is true of humans. We eat much more when a variety of goodtasting foods are available than when only one or two types of food are available.

(A): _____

(B): _____

다음 글의 밑줄 친 'The same is true of humans.'가 글에서 의미하는 바로 가장 적절한 것은?² [19년 3월 21번]

Think of a buffet table at a party, or perhaps at a hotel you've visited. You see platter after platter of different foods. You don't eat many of these foods at home, and you want to try them all. But trying them all might mean eating more than your usual meal size. The availability of different types of food is one factor in gaining weight. Scientists have seen this behavior in studies with rats: Rats that normally maintain a steady body weight when eating one type of food eat huge amounts and become obese when they are presented with a variety of high-calorie foods, such as chocolate bars, crackers, and potato chips. The same is true of humans. We eat much more when a variety of good-tasting foods are available than when only one or two types of food are available.

- ① Humans regret having platter after platter of different foods.
- ② Humans prefer to try limited kinds of food not to gain weight.
- ③ Humans become obese when having a huge amounts of different types of food.
- ④ Failing to maintain a steady body weight for humans is due to exercising less like rats.
- ⑤ Humans cannot gradually reject good-tasting foods which are available around themselves.
