Veterinary Immunology and Immunopathology

VOLUME 238

Contents

AUGUST 2021

- The contribution of the immune response to enhanced colibacillosis upon preceding viral respiratory infection in broiler chicken in a dual infection model
E.A.W.S. Weerts, M.G.R. Matthijs, J. Bonhof, D.A. van Haarlem, R.M. Dwars, A. Gröne, M.H. Verheije and C.A. Jansen
110276
- New mAbs facilitate quantification of secreted equine TNF- α and flow cytometric analysis in monocytes and T cells
C.L. Schnabel, S. Babasyan, H. Freer, E.M. Larson and B. Wagner
110284
- Neospora caninum* truncated recombinant proteins formulated with liposomes and CpG-ODNs triggered a humoral immune response in cattle after immunisation and challenge
M.B. Novoa, M. Sarli, I.G. Reidel, C. Veaute, B. Valentini and M.E. Primo
110285
- miR-509-5p anti-infection response for mycoplasma pneumonia in sheep by targeting NF- κ B pathway
M. Zhu, S. Cao, W. Zheng, M. Zhai, M. Wang, H.T. Blair, S.T. Morris, H. Zhang and Z. Zhao
110275
- Genome editing of a hybridoma cell line via the CRISPR/Cas9 system: A new approach for constitutive high-level expression of heterologous proteins in eukaryotic system
N. Schibeci Natoli Scialli, B. Colitti, L. Bertolotti, G. Pezzoni, E. Martignani, M. Melega, E. Brocchi and S. Rosati
110286
- Effect of IL8 haplotype on immunological traits in periparturient dairy cows
G. De Matteis, M.C. Scatà, F. Grandoni, A. Crisà, M.B. O'Brien, K.G. Meade and G. Catillo
110288
- Effect of IL-8 haplotype on temporal profile in circulating concentrations of interleukin 8 and 25(OH) vitamin D in Holstein-Friesian calves
M.B. O'Brien, R.M. McLoughlin, C. Roche, C.D. Nelson and K.G. Meade
110287
- Comparison of recombinant *Culicoides* allergens produced in different expression systems for IgE serology of insect bite hypersensitivity in horses of different origins
S. Jonsdottir, S. Torsteinsdottir, V. Svansson, J. Gudbrandsson, S.B. Stefansdottir, J. Mar Bjornsson, A. Runarsdottir and E. Marti
110289
- Immune and experimental infection responses of dairy cows vaccinated with the combination of six *Staphylococcus aureus* proteins that are expressed during bovine intramammary infection and a triple adjuvant
C. Ster, M. Allard, J. Côté-Gravel, S. Boulanger, P. Lacasse and F. Malouin
110290
- Quality of life-improving effect of autologous *ex vivo* expanded cytotoxic and opioid-producing lymphocytes for dogs with cancers
K. Mitani, Y. Ito, Y. Takene, S. Hatoya, K. Sugiura and T. Inaba
110292
- The immune response in bovine primary dermal fibroblasts is influenced by Interleukin 8 promoter haplotype and vitamin D
M.B. O'Brien, C.L. Beynon, R.M. McLoughlin and K.G. Meade
110291
- Effect of polymyxin B on *ex vivo* tumor necrosis factor- α responsiveness of blood leukocytes in Danish Holstein Friesian cows
M. Khatun, B.M. Damgaard, J.B. Andersen and C.M. Røntved
110293
