We often ignore small changes because they don't seem to matter very much in the moment.

- (A) But when we ④repeat small errors, day after day, by following poor decisions again and again, our small choices add up to bad results. Many missteps eventually lead to a problem.
- (B) If you save a little money now, you're still not a millionaire. If you study Spanish for an hour tonight, you still haven't learned the language. We make a few changes, but the results never seem to come quickly and so we slide back into our previous routines.

- ③ (B) - (C) - (A)
