WELCOME TO OUR SEP DIGEST

Dear Student Exchange Officers,

As we wrap up the 2023-2024 mandate, I want to take a moment to reflect on the incredible journey we've shared.

My adventure began as a Local Exchange Officer (LEO), and after that enriching experience, I felt inspired to take on the role of Student Exchange Officer (SEO) for my member organization. Joining the Student Exchange Committee (SEC) was the next step for me, and with your trust, I had the privilege of serving as the Chairperson of Student Exchange this year. It has truly been a memorable experience for me.

Working alongside each of you has been an absolute honor. Together, we've navigated the challenges and triumphs of one of IPSF's largest programs—the Student Exchange Programme. I hope you found your time in this role as rewarding as I did.

I want to extend my heartfelt gratitude to you and my wonderful Student Exchange Committee for your unwavering dedication, effort, and support. The bonds we've formed and the friendships we've created will always hold a special place in my heart, and I'm here for you whenever you need me.

Here's to celebrating our achievements and the vibrant spirit of our community. I look forward to crossing paths with you all again in the future.

Viva la IPSF! Viva la SEP! Viva la Pharmacy!

Warm regards,

Dorian Joghataie
Chairperson of Student Exchange 2023-2024

SEP DIGEST

SEP Digest serves as once in 2 months correspondence gathering all helpful tips, newest updates, and important events yet to come, all together in one document.

So, make sure to read it thoroughly, take note of important deadlines, and stay ahead for the next edition!

INFO ABOUT SEP

WHAT IS SEP?

Student Exchange Programme (SEP) is IPSF's largest project, offering professional pharmacy internships. Every year, more than 1000 students around the world are given the opportunity to experience pharmacy practice in more than 93 different countries.

Student Exchange Officers (SEOs) represent their national organizations that are members of IPSF, at a national and international level. They are responsible for finding host sites and accommodation for the incoming students and also finding places for the outgoing students by contacting other SEOs. They are leaders of their association's Local Exchange Officers and SEP Teams and are responsible for the entire process of SEP nationwide.

The IPSF member organizations organize the exchanges by finding host sites where the students are trained. The programme runs throughout the year (winter version and summer version), but most of the exchanges occur between May and September. The length is usually 2 weeks up to 3 months with a minimum of 40 working hours per exchange, and possible host sites include: Community pharmacy, hospital pharmacy, clinical pharmacy, wholesale pharmacy, pharmaceutical industry, research at university, government or private health agencies.

The host may also provide room, board and/or pocket money in addition to the training site to help the applicant. During the exchange, participants can share and develop pharmaceutical knowledge and skills. At the same time, this is a unique opportunity to experience new cultures, try different food, meet friends, learn a new language, visit beautiful places, and enjoy your vacations by enriching yourself in various ways.

In case you have any questions regarding the SEP program you can reach out to us by email address: sep@ipsf.org

SEP FAQ

Q: Who can participate?

A: Pharmacy students and recent graduates (up to 4 years after graduation) who belong to an IPSF Member Organisation can apply for SEP through their association. If your association is not a member of IPSF, you can apply for Individual Membership first and then apply as an Individual Member.

Q: What countries can I go on exchange to?

A: A list of all participating associations and countries are listed in the website 'Countries' tab. You can view a lot of information about each association and also view evaluations posted by past SEP participants. [Click here to see.](#)

Q: How long will my Exchange last?

A: This is dependent on the association you choose. The period can vary from 2 weeks to 2 months, as long as you fulfill the minimum requirement of 40 hours of internship.

Q: What is the minimum working hours needed to be eligible for students to receive the certificate?

A: 40 hours

Q: What will I be doing during my SEP practice?

A: Depending on the field each MO offers, you will do internships in different available fields such as community pharmacy, clinical pharmacy, research, or industry. you will learn about how pharmacists work in your destination and will learn from them.

SEP FAQ

Q: When is the deadline to apply for the SEP?

A: Most of the associations have different deadlines set. To find this information please contact your home association's Student Exchange Officer.

Q: How many people can do SEP in a year? Is there a quota for each MO?

A: For every SEP year, each MO gets a quota to send students as outgoings. Keep in mind that MOs have limited quota to send outgoing students but hosting incoming students has no limitation and depends on how many hosting places the MO can offer.

Q: I want to apply for SEP, how is the procedure?

A: First, check if there is an association representing you that belongs to an IPSF Member Organization (MO). If not, you can apply individually. You should contact the SEO of the MO that represents you at IPSF, as they will guide you through the process.

The basic procedure involves first being selected by your home SEO. After that, you create an account on the SEP database and fill out the application form (AF). The status of your AF will show you the progress of your application. Once the host SEO marks you as "interested," the process becomes more certain. The final step is when the host SEO marks you as "placed," confirming your participation.

SEP FAQ

Q: What is the pre-selection process?

A: If more candidates apply for SEP than the available quota of the Member Organization (MO), the MO will establish a procedure to select suitable outgoing students. This pre-selection process varies by MO but typically includes evaluating the candidates' CVs and motivation letters, considering their past participation in the MO or IPSF, and in some cases, conducting a brief interview with students interested in SEP.

Q: Can I stay in the dorm longer than my SEP lasts?

A: This depends on each member organisation's decision as some may even not provide you with dormitories to stay at and you need to look for Airbnb, a Hostel, or Hotel near your exchange place with the help of host SEO. Even if they provide you with a dormitory they may not let you stay longer unless you let them know beforehand and this may have extra costs for you.

Q: Can I get a letter of guarantee that allows me to stay longer than my practice?

A: As mentioned before, staying longer is a personal decision and the host member organisation is not responsible for it so the answer to this question is NO.

Q: Does the Student Exchange Officer arrange Visas for incoming students?

A: No, it is the incoming student's responsibility to apply for a Visa in a timely manner. The student can ask for the Invitation Letter from the host SEO to support his/her Visa application, but all other tasks involving visa procedures is the student's responsibility.

SEP FAQ

Q: How SEOs choose their incomings (mark interested on SEP Database) ?

The process varies depending on the SEO. One SEO explains their selection criteria as follows: "I mark a student as 'interested' when three main conditions are met: 1- Their CV and motivation letter (ML) demonstrate 'above average' motivation. This includes additional activities on their CV, such as positions within their Member Organization (MO), IPSF, regional other organisations, research work, volunteering, or involvement in other pursuits like sports or playing instruments. The more diverse the activities, the better. I also consider their age and year of study, acknowledging that younger students or those earlier in their programs may have had fewer opportunities compared to someone in an advanced year. 2- I check if the student's interests align with an available placement I have. 3- The student has put effort into their CV, ML, and their 'interest in SEP' statement. If the motivation letter or interest section is brief or vague (e.g., only three sentences long), they are immediately disqualified.

These criteria help reduce the pool of about 150 applicants to roughly 30. In retrospect, I would also add a fourth criterion: an English proficiency certificate (B1 or above), as some students did not meet expectations regarding their language skills."

To summarize it, host SEO chooses students by reviewing the application form, which includes your motivation. To stand out, your goal should be to immediately convince the host that you are the ideal candidate for their workplace. Write with confidence, and clearly explain why you chose to participate in SEP, why you are interested in that particular field, and why you selected the host country. Remember that multiple hosts from various fields will read the same text, so it's crucial to strike the right tone. Hosts seek students with strong motivation who are genuinely interested in the work they will do. Ensure your writing is clear, fluent, and free of spelling or grammatical errors. Be creative; your reasons for participating in SEP may be more varied than they first appear.

SEP FAQ

Q: What is the health insurance situation if a student gets hurt during their practice at the institution?

A: We suggest you prepare travel insurance for yourself to help you in case anything happens. The host team can help you with finding medical care services but they are not responsible for it and no expenses will be covered by them.

Q: How many awardees for SEP Grant?

A: This depends on the treasurer and the development fund coordinator to adjust the number of grant winners with the IPSF budget at that time so it may differ from time to time but we try our best to have at least 3 winners based on the priorities we have.

Q: What agreement should be made between the institution and the MO?

A: The best way is to sign a contract of collaboration between the MO and the institutions which are helping them with SEP. We suggest you to consider every little detail which is mentioned in the contract in order to keep it suitable for your MO and get advice from the chairperson of SE and the president of your MO to make sure that all mentioned points in your contract align with your MO rules and IPSF rules.

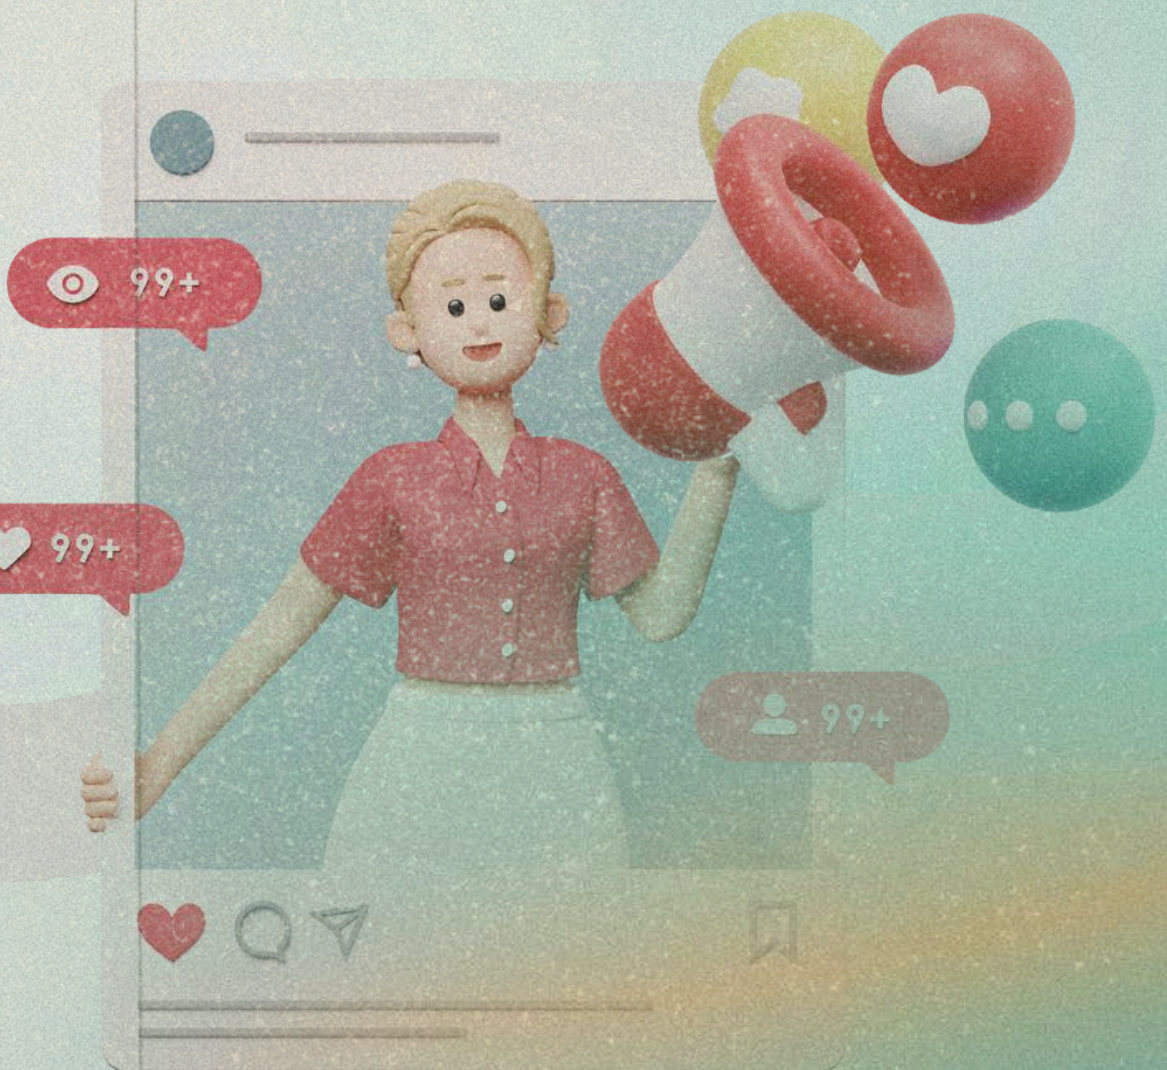

Q: What can I do to motivate my SEP team more?

A: Having regular meetings and gathering with your team, appreciating their work in different ways and including them in your activities is the best motivation way to also let them know that they will receive a certificate from IPSF for their work.

What is SEP?

LET'S BRING CHANGE TO OUR PHARMACY WORLD!

Last Words

FROM THE
SEC TEAM

Huge applause and gratitude to all the SEOs for your hardwork and dedication throughout the mandate! Your commitment and efforts have been instrumental in making our student exchange programs successful and enriching the experience of all participants! We are truly grateful for your contribution that has made a significant impact! Thank you once again for your remarkable service. All the best in your future endeavors!

Janice

Connecting with you from all over the world has been inspiring and I am amazed by the level of collaboration (your social media post, efforts in SEP Contest and your SEP promotion) and dedication you all have shown. Your hard work, day and night, ensured the success of this program. Thank you to each and every one of you for making this journey so memorable. I wish you all the very best and I hope our paths cross again in the future!

Şeyma

It's been my second mandate as a SEC member and it never gets boring. To meet and work with so many ambitious, talented, hardworking and wonderful people is a pleasure. Thank you to Dorian, our hardworking and kind boss-lady, my wonderful SEC groupmates and all of you inspiring SEOs for creating another memorable mandate for me. If you want to stay involved with SEP the next year as well, I really suggest you join the Student Exchange Committee!

Nuša

Kudos to all my teammates, it wasn't easy at all but they did their best. Thanks to DORIAN, our chairperson, things were smooth and easy. She was very comprehensive, dynamic and responsive. Throughout my mandate I had a good relationship with my SEOs, they always tried their best to submit their monthly report on time and to attend most of the meetings. This mandate has been incredible and I am gonna miss you all, love you guys. See you soon !!!

Israel

Dear my mission possible team, It wasn't that easy to reach this moment but I believed in each one of you and I believed that everyone's mission was possible. I'm sure everyone of you guys will do their best to achieve his goals and to make a difference. I'm so proud of each one of you and it was an honor to know you all and to work with you. I wish that we had the chance to meet in person but maybe we can meet in the future. All the best for you guys and I hope to see you achieving more success in your life.

Rana

This memorable mandate is closing to an end (OMG I get emotional:)) so first of all I would like to thank dear Dorian ,the best leader ever, for all her efforts and guidance, which cleared the way for all of us, as well as my talented and friendly sec teammates, who made me proud to work with them. and the hard-working and dedicated SEOs, who saw all their activities to promote SEP and their countries motivated me more than before. Getting to know you and your rich cultures was very enjoyable for me. I wish you the best

Nadia

Firstly, I would like to congratulate Dorian, for always being there for us, my lovely SEC teammates, and most importantly, the most hard-working and incredible SEOs ever! Thank you for making an incredible year for SEP and granting me the most amazing experience of working with you all. As my mandate is coming to an end, I know the friendships and the memories I've made will stay with me forever.

Defne

A year filled with lots of new experiences and new friends that I will cherish forever. I decided to join the student exchange committee after being an SEO as a way of further expanding my knowledge on SEP and answering my curiosity on how SEP is like behind the scenes. A big shoutout to Dorian, thank you for your guidance throughout this mandate. I believe that I would not have been able to obtain the knowledge that I do today without your presence. Another shoutout to the SEC for welcoming me with open arms and working with me to complete the tasks that were carried out this year. All of you felt like a missing puzzle piece that completes me. Lastly, shoutout to the SEOs who I was SEC buddies with, I acknowledge the hard work you have put in for your mandate and you should be proud of what you have achieved. Thank you for being such great SEOs and I wish for continuous success in your future endeavors.

Zahra

FROM THE SEOS

Jeshannah Trishah Rea
L. Masincap
FJCPPHA, Philippines

I have no words but of gratitude and praise for the Chairperson, SEC and SEO this mandate, you made this mandate great and I wouldn't be able to finish this without all of you.

Puteri Adristi Arundaya Iriana
BEM FF UI, Indonesia

One of my most memorable and exciting experiences in IPSF is becoming an SEO. So lucky to have met these lovely SEOs, SECs, and Chairperson of SEP. Wishing all the best to the next SEP mandate!

WONG YIN TENG
MyPSA, MALAYSIA

Grateful to have the opportunity to serve as the SEO! It's been an honor to support the growth and witness the achievements. I trust that SEP will continue to inspire and connect, making our exchange program even more impactful. Wishing all SEOs all the best for the future!

Gamze Nur Songur
TPA-YC, Türkiye

I hope the friendships I have made here will last until I meet my children. I'm not even married yet!

Zineb Medrek
NAPSA, Australia

It was an enriching experience to become SEO for the first time. It took a lot of my time, and I spent endless hours working on it at times but it was so worth it to be able to have a very successful mandate for NAPSA, Australia. I'm very excited to see how we will continue to grow over the years now that we are back on track.

Kerolos Gamal Wassif
EPSF, Egypt

The SEP mandate of 2023-2024 was nothing short of life-changing. From the challenges to the triumphs, every moment was filled with purpose. Helping students explore the world through SEP and seeing their dreams come true made my heart full. I'm forever grateful to have been part of this unforgettable journey.

Last Words

FROM THE SEOS

Imene BENCHABANE
ASEPA, Algeria

Thank you everyone for making this experience memorable!

Carrie-Anne Kelly
asep, Switzerland

Thank you for this mandate and for everyone involved! It taught me a lot of new things and I enjoyed it very much:)

Yara Suleiman
JPSA, Jordan

My SEP year wouldn't have been the same without my LEO's Zeina and Leen. I'm very proud of them and the work we've done together. Thank you to Ms. Nadia and Dorian who were always so supportive and guided me. Shoutout to all the SEO's I love you all <3.

Chelli Ania
ASEPT, Algeria

I enjoyed every moment of this mandate, I met amazing people, learned a lot of things, THANK YOU from the bottom of my heart SEP ❤️

Mohammadmahdi Ghavamipour
IPhSA, Iran

The uniqueness of the Student Exchange Program lies in its ability to connect students from various countries, fostering cultural exchange and collaboration. As a SEO, I had the chance to meet extraordinary individuals from diverse cultures, collaborate with them, and build lasting friendships. It was my pleasure to be a part of SEP 2023-2024. Viva la SEP

Bor Zabrc
DŠFS, Slovenia

While our job as SEOs is far from easy, we should remember that through our work and dedication, we enable countless students each year to embark on personal and professional development experiences that would otherwise be out of reach for them.

World Congress

World Congress

World Congress (WC) is one of the largest IPSF events where a huge number of pharmacy and pharmaceutical science students gather and improve their abilities, get involved in various activities, and have fun..

69th IPSF World Congress 2024
SEOUL, REPUBLIC OF KOREA

This year the 69th WC was hosted by KNAPS, Republic of Korea. The SEO meeting was one of the programs that we had on the first day of the WC. All SEOs, whether present in person or joined online, participated in the meeting and we talked about the experience we had during this mandate and outlined points that can be improved in the future.

World Congress

As you may know, Student Exchange Officers (SEOs) are one of key members of member organizations and have an important role in decision-making during the WC and specifically the general assembly. During the WC and in the General Assembly we had SEOs representing their member organizations and tried their best to help IPSF with their presence. Here you can see some photos from the WC. Keep in mind that the next WC will be hosted by KePhsa, Kenya and hope to see you in Nairobi.

BEST SEO OF MANDATE 23-24

Congratulations

Kerolos Gamal
EPSF, Egypt

Jeshannah Trishah Rea L. Masincap
FJCPhA, Philippines

Yara Suleiman
JPSA, Jordan

We would like to congratulate our hardworking Student Exchange Officers for their performance and achieving the **Best Student Exchange Officer awards** that announced in **69th World Congress**.

Important Reminders

Choose Your Successors

Based on the responses gathered from the SEOs regarding finding and preparing their successors, here are the key general recommendations:

Assess Motivation and Competence: SEOs should ensure their successor is motivated, responsible, and has a strong understanding of IPSF and SEP. Assessing their skills through interviews and evaluating their commitment to international activities is important.

Focus on Team Structure: It is recommended to emphasize building a strong, well-organized SEP team with specific roles such as PR officer, logistics officer, and sponsorship officer.

Effective Handover Process: Preparing a comprehensive handover document, including all essential information like logins, processes, and contacts, is vital.

Trainings and Continuous Support: Successors should undergo thorough handover training. Also SEOs stay involved for a few months after their term ends to offer guidance and respond to questions. Regular mentorship and support can help boost the confidence of the new SEO.

Key Qualities of a Successor: SEO should be organized, good communicators, able to handle a heavy workload, and capable of adapting to the demands of the role, including doing virtual SEPs and collaboration with international teams. SEO should have an idea of what kinds of tasks take the most time such as finding placements, promotion, sponsors, communicating with the dorms, planning SEP activities. SEOs should be interested in international activities and communicating with people from different countries.

By following these recommendations, SEOs can choose their successors and help their successors transition smoothly into the role and continue performing effectively.
